

Violence and the Supernatural

The fantasy world of Nightbane® is violent, deadly and filled with superhumans, aliens, supernatural monsters, and strange powers. Supernatural beings, psychics, mutants, alien horrors, and nefarious villains threaten, enslave, torment and prey upon humans. Monsters, gods, demons, magic, insanity, drugs, biological experiments, war and horror are all elements of this book.

Some parents may find the horror, violence, magic, super abilities and supernatural elements of this book inappropriate for young readers/players. We suggest parental discretion.

Please note that none of us at Palladium Books condone or encourage the occult, the practice of magic, the use of drugs, vigilantism or violence.

An adventure sourcebook for the *Nightbane® RPG*.

Compatible with *Beyond the Supernatural™* and the entire Palladium Books® Megaverse®!

Dedication

This work is respectfully dedicated to Susan Vey (my mom), first and foremost. You're my biggest fan, my best critic, and I always promised you I'd dedicate my first book to you, so here it is!

Kudos and dedications also have to go out to the late James "Lucky" Moran, for help and inspiration way back in the day, to Ian Fielder for all his help, comments, and criticisms of my writing over the years, to Julie, my inspiration, to Huz Vey (Dad) for always being there when I need you, Sara Vey (sis) for constant support (even when I'm being a pain), and to every last member—both current and past—of the Questors of Dragonwright, the Seekers of the Blade, and the Eternally Confused Heroes' Organization. Here's to adventures past, and to those that lie ahead, both fantastical and real!

Special Thanks to Maryann, Kevin, and Wayne at Palladium for giving me this opportunity to pursue a dream.
